Overview

This document contains technical release notes relating to PleaseReview 6.7 server versions up to and including 6.7.3. As this is the initial release of 6.7, this document highlights new functionality only and you should follow instruction in the upgrade guide on how to apply this to an existing system.

When upgrading from 6.6 or earlier, note that the upgrade guide contains full instructions and compatibility notes which you should read carefully before starting the upgrade.
