Overview

This document contains technical release notes relating to the PleaseReview 7.1 Veeva Vault integration.

PleaseReview Server 7.1.1 is required to install this version. If you are in any doubt, please contact Ideagen support for guidance. If this is a new Veeva Vault integration, please refer to PleaseReview v7.1 Veeva Vault Installation Guide for guidance.

To upgrade from 7.0, please refer to PleaseReview v7.1 Veeva Vault Upgrade Guide before you upgrade to ensure the configuration changes referenced in that document have been applied before upgrading. It is required that the PleaseReview system is integrated with Veeva Vault before patching starts and the integration is fully operational.
